DETAILED ACTION

Final Rejection

Response to Amendment

1. Claims 1-14 are pending. Claims 15-27 are cancelled in the amendment filed 7/16/2007.
2. The rejection of claim 1 under 35 U.S.C. 112, second paragraph, is withdrawn in light of Applicants amendment to the claims.
3. The rejection of claims 11-13 under 35 U.S.C. 112, second paragraph is maintained. Claims 11-13 recite the limitation "...at least about ... days after forming the composition." This is indefinite because the limitation recited does not make clear or define the boundaries of the subject matter for which patent protection is sought. For example it is indefinite if Applicants are claiming limitation to at least 10 days or about 10 days?
4. The rejection of claims 1-27 under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Man et al. (WO 02/02727) is withdrawn in light of Applicants amendment to the scope of the instant claims making them commensurate in scope with the disclosure of Application No. 10/208,404 and 09/606,478 which amendment makes reference WO 02/02727 no longer available as prior art under 102(b).

Response to Arguments

5. Applicant's arguments filed 7/16/2007 have been fully considered. See the new grounds of rejection below.

New Grounds of Rejection

Priority

6. Applicant's claim for the benefit of a prior-filed application under 35 U.S.C. 119(e) or under 35 U.S.C. 120, 121, or 365(c) is acknowledged in view of Applicants amendment to the claims to be commensurate in scope to the disclosure of the prior-filed application, Application No. 10/208,404 and 09/606,478.

Claim Objections

7. Claims 11-13 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Amended claim 1 recites limitation to at least 30 days. Claims 11-14 recite limitation to days less than 30 days and accordingly do not properly limit the subject matter of claim 1.

Double Patenting

8. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to

Art Unit: 1751

be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

9. Claims 1-14 are provisionally rejected on the ground of nonstatutory double patenting over claims 1-23 of copending Application No. 10/208,404. This is a provisional double patenting rejection since the conflicting claims have not yet been patented.

The subject matter claimed in the instant application is fully disclosed in the referenced copending application and would be covered by any patent granted on that copending application since the referenced copending application and the instant application are claiming common subject matter, as follows:

10/208,404 = US 20030087787	Instant claims
a surfactant, a deterative enzyme,	a surfactant, a deterative enzyme,
about 10 to about 35 wt-% alkanol amine borate	about 10% to about 20% by weight boric acid salt
	40% to about 85% by weight water
80% of its initial activity at ambient temperature for at least about 11 months	80% of its initial enzyme activity at ambient temperature for at least 30 days

Furthermore, there is no apparent reason why applicant would be prevented from presenting claims corresponding to those of the instant application in the other copending application. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804.

Art Unit: 1751

10. Claims 1-14 are rejected on the ground of nonstatutory double patenting over claims of U. S. Patent No. 6,624,132 since the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent.

The subject matter claimed in the instant application is fully disclosed in the patent and is covered by the patent since the patent and the application are claiming common subject matter, as follows:

Patent 6,624,132	Instant claims
a surfactant, a deterative enzyme,	a surfactant, a deterative enzyme,
10% to about 20% by weight of a boric acid salt	about 10% to about 20% by weight boric acid salt
60% to about 85% by weight water	40% to about 85% by weight water
about 100% of its initial activity at ambient temperature for at least 11 months	80% of its initial enzyme activity at ambient temperature for at least 30 days

Furthermore, there is no apparent reason why applicant was prevented from presenting claims corresponding to those of the instant application during prosecution of the application which matured into a patent. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 1751

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
